POLICY FOR THE ALIGNMENT OF FOREIGN AND INTERNATIONAL QUALIFICATIONS TO THE OMAN QUALIFICATIONS FRAMEWORK

1. Purpose

The purpose of this policy is to provide a common approach for the Alignment of Foreign and International qualifications to the Oman Qualifications Framework (OQF) to ensure the evaluation for Alignment is carried out consistently and that all Aligned qualifications, placed on the National Register of Qualifications (NRQ) meet the Alignment Criteria.

Alignment is defined as `an evaluation of a Foreign or International qualification against the Alignment Criteria and the OQF Level Descriptors to determine the OQF Level that the qualification aligns to and, if applicable, the comparable OQF Credit Value of the entire qualification`.

Foreign qualifications are qualifications awarded by an Awarding Body from a country other than Oman. International qualifications are qualifications awarded by an International Awarding Body (e.g., Cisco and Microsoft).

This policy sets out the:

- Benefits of a common approach to Alignment
- Alignment Criteria
- Roles and responsibilities of key stakeholders

This policy should be read in conjunction with the OAAAQA Policy for the Quality Assurance of the OQF.

2. Scope

This policy applies to the Alignment of Foreign and International qualifications, delivered in Oman, from all sectors of education and training. Alignment to the OQF is mandatory¹ and applies to new and existing Foreign and International qualifications:

- Owned and/or awarded by a Foreign or International Awarding Body
- Developed by an Omani education or training provider and awarded by a Foreign or International Awarding Body
- Jointly developed by an Omani education or training provider and a Foreign or International Awarding Body, awarded by the Foreign or International Awarding Body
- Training certificates, developed by employers, awarded by a Foreign or International Awarding Body

From the date of the OQF implementation, Foreign and International Awarding Bodies delivering or planning to deliver a qualification in Oman must apply for the Alignment of the qualification to the OQF:

- Within 5 years, for qualifications currently offered in Oman
- Before delivery, for qualifications not currently offered in Oman

¹ Royal Decree 9/2021.

2.1 Users of the Policy

This policy applies to:

- The Oman Authority for Academic Accreditation and Quality Assurance of Education
- Foreign and International Awarding Bodies of Education and Training Qualifications
- Education and Training Providers that award Foreign or International Qualifications
- Foreign and International Professional Bodies

This policy may also be of interest to the following stakeholders:

- The Ministry of Education
- The Ministry of Higher Education, Research and Innovation
- The Ministry of Labour
- The Oman Medical Specialty Board
- Other Ministries and Government Bodies
- Education and Training Providers
- Employers
- Other Interested Parties²

3. Policy Statement

Alignment is the process of evaluating a Foreign or International qualification against the Alignment Criteria and the OQF Level Descriptors to determine the OQF Level of Alignment and the comparable OQF Credit Value, if applicable, before the placement of the qualification on the Alignment section of the NRQ.

3.1 Alignment Criteria

The Foreign or International Awarding Body must:

- Own and/or award the programme that leads to the qualification
- Be quality assured/accredited by a recognised external quality assurance agency
- Have robust institutional quality assurance measures in place, ensuring comparability with that required by Omani Awarding Bodies for the institutional license
- Have arrangements in place for communicating with each education or training provider delivering the qualification in Oman

The Foreign or International qualification must have:

- A programme license from the relevant licensing body, as required by the Omani licensing regulations
- Quality assurance measures in place
- Clear Learning Outcomes that are subject to quality-assured summative assessment

3.2 Benefits of a Common Approach to the Alignment of Foreign and International Qualifications Delivered in Oman

The Alignment of Foreign and International qualifications to the OQF is a matter of professional judgment by those who have knowledge, skills and experience in the relevant subject, discipline occupation or profession and knowledge of the OQF. A common approach to Alignment provides the following benefits:

- Informs Foreign and International Awarding Bodies of the quality assurance arrangements required to meet the Alignment Criteria

² E.g., learners and their families, people looking for employment, employees looking for a better job or a career progression, anybody who is interested in the economic and social development of Oman.

- Ensures fairness and consistency of the Alignment process
- Develops and increases mutual trust and understanding of the OQF for Foreign or International Awarding Bodies whose qualifications are being, or may be, delivered in Oman

3.3 OQF Level

OQF Level is defined as 'an indicator of relative demand, complexity, depth of knowledge and learner autonomy as described by the OQF Level Descriptors'.³

Derived from the range of formal qualifications in Oman, the OQF has ten Levels, which increase in demand to reflect progression in learning; Level 1 is for elementary education and training and Level 10 is for the most complex, at the forefront in the development of new knowledge and skills.

The OQF Level of Alignment of a qualification is determined through an evaluation of the modules that comprise the qualification, against the Alignment Criteria and the OQF Level Descriptors. Alignment enables comparability of a Foreign or International qualification to an Omani qualification at the same OQF Level.

3.4 OQF Credit

OQF Credit is defined as 'a numerical indicator of the volume of learning, awarded for the achievement of all the Learning Outcomes of a unit, module, course and/or qualification, expressed in either OQF Credit Points or OQF Credit Hours'.

Both OQF Credit Points and OQF Credit Hours are based on notional learning hours defined as 'the volume of learning estimated to be required by a typical learner at a specified level to achieve the Learning Outcomes of the units, modules or courses that comprise a qualification'.

The calculation of notional learning hours includes all the learning activities needed to achieve the Learning Outcomes. Examples of activities include, but are not exclusive to, class/lecture contact time; laboratory work; workshops, self-study; research; homework; fieldwork; assignments; preparation for assessment and assessment.

As OQF Credit indicates the size or volume of the learning required to achieve the Learning Outcomes of the modules that comprise the qualification, it can be used to describe and compare qualifications.

3.4.1 OQF Credit Points

- One OQF Credit Point equates to ten notional learning hours
- Whole OQF Credit Points must be allocated, not fractions
- A minimum of four OQF Credit Points (minimum 40 notional learning hours) is required for a qualification to be Aligned to the OQF and placed on the NRQ

3.4.2 OQF Credit Hours

- One OQF Credit Hour corresponds to three hours per week for one semester (a minimum of 14 weeks)
- Based on a 14-week semester, one OQF Credit Hour equates to a minimum of 42 notional learning hours

³ Adapted from D Gosling and J Moon, *How to Use Learning Outcomes and Assessment Criteria* (London: Southern England Consortium for Credit Accumulation and Transfer, SEEC Office, 2001).

- Each OQF Credit Hour comprises a combination of activities, for example, this may be, but is not exclusive to:
 - One-hour class contact time and two hours of learning activities
 - Two hours of class laboratory work and one hour of learning activities
 - Three hours of learning activities⁴
- A minimum of one OQF Credit Hour (minimum 42 notional learning hours) is required for a qualification to be Aligned to the OQF and placed on the NRQ

3.4.3 Comparable OQF Credit Value

The OQF Credit Value is defined as 'the number of OQF Credit Points, or OQF Credit Hours, which are allocated to units, modules, courses and qualifications for learning that is verified through reliable and valid assessment'.

The Foreign or International Awarding Body must determine the comparable OQF Credit Value for each module and for the entire qualification. This can be based on the number of notional learning hours, equated to either OQF Credit Points or OQF Credit Hours. Alternatively, where a different set of principles is used⁵ to calculate the Credit Value of units, modules, courses and qualifications, the comparable OQF Credit Value may be based on the credit system used e.g., 60 ECTS Credit Points broadly corresponds to 120 OQF Credit Points.

3.5 Institutional Quality Assurance and Communication Arrangements required for Alignment

3.5.1 Institutional Quality Assurance Arrangements

Unlike an Omani Awarding Body, a Foreign or International Awarding Body does not require an institutional license from a licensing body to operate in Oman. To Align its qualifications to the OQF, the Foreign or International Awarding Body must be accredited by an external quality assurance agency and provide information and evidence on its institutional quality assurance **in addition to** the information and evidence for the quality assurance of the qualification.

Foreign and International Awarding Bodies must follow the OAAAQA Policy for the Quality Assurance of the OQF, which provides details of the quality assurance requirement for Alignment (see Appendix C4).

3.5.2 Communication Arrangements

There must be a communication strategy and/or detailed arrangements in place to ensure effective communication between the Foreign or International Awarding Body and the education or training provider(s) delivering the qualification in Oman.

3.6 Roles and Responsibilities for the Alignment of a Foreign or International Qualification

3.6.1 Foreign or International Awarding Body

A Foreign or International Awarding Body makes an Alignment application for a qualification that it owns and/or awards, which is delivered in Oman. The application can be made in either English or Arabic, depending on the language in which the qualification is delivered.

⁴ Section 3.3 sets out examples of learning activities.

⁵ E.g., Credit Units used by Australian HEIs, the European Credit Transfer System (ECTS) or the European Credit System for Vocational Education and Training (ECVET).

To complete the Alignment Application Form, the Foreign or International Awarding Body establishes an Alignment Committee responsible for:

- Ensuring the quality assurance measures comply with the OAAAQA Policy for the Quality Assurance of the OQF (see Appendix C4)
- Evaluating the qualification to ensure it meets the Alignment Criteria (see section 3.1)
- Proposing the OQF Level of Alignment and, if applicable, the comparable OQF Credit Value for each module and for the entire qualification
- Completing the online Alignment Application Form, checking to ensure it is complete with:
 - Appropriate and relevant supporting material
 - Details of the contact person within the Foreign or International Awarding Body with responsibility for communication on all issues related to the Alignment application
 - The signature of the authorised representative from the Foreign or International Awarding Body with authority to submit Alignment applications
- Checking the Alignment application for completeness and consistency
- Submitting the Alignment Application Form electronically to the DGNQF together with the relevant supporting material⁶

- Approving the:
 - Appointment of OQFERs to the National Register of External Reviewer (National ER Register), following recommendation by the DGNQF or, where required, the removal of OQFERs from the register
 - Second Draft of the Alignment Evaluation Report as the Final Alignment Evaluation Report

⁶ The Alignment Application Form includes a template, which must be completed for each module to provide the module overview, the Learning Outcomes and the Assessment Criteria along with the Committee's proposal for the OQF Level of Alignment and, if applicable, the comparable OQF Credit Value.

3.6.4 OAAAQA Board

The OAAAQA Board is responsible for:

- Approving the:
 - Outcomes of Alignment evaluations and, where appropriate, the placement of qualifications on the Alignment section of the NRQ
 - Yearly (annual) report on the OQF (see section 4.7)
 - Fees for activities associated with the Alignment process, including those for OQF appeals before submission to the Ministry of Finance for approval

4. Procedure

The steps to be followed in the implementation of this policy are given in this section.

4.1 Foreign or International Awarding Body

To prepare the Alignment application, the Foreign or International Awarding Body that owns the qualification forms a small OQF Alignment Committee comprising subject and quality assurance experts who are familiar with NQFs. Ideally, this should be no more than five suitably competent individuals, facilitated by an OQF Alignment Committee Chair. More than one OQF Alignment Committee may be formed, depending on the size of the qualification, available resources and/or the specialisations within the qualification; but the one Chair facilitates and coordinates the Alignment activity across multiple OQF Alignment Committees.

The OQF Alignment Committee may comprise professionals from the education or training provider delivering the qualification in Oman, and may also include subject experts from the Qualification Design Team (QDT). For objectivity, where possible, it is advisable to have at least one member who is independent of the qualification.

4.1.1 The OQF Alignment Committee

The OQF Alignment Committee:

- Takes responsibility for the completion of the online Alignment Application Form gathering information and supporting material to provide evidence in relation to the Alignment Criteria (see section 3.1)
- Ensures compliance with the OAAAQA Policy for the Quality Assurance of the OQF
- Proposes the
 - OQF Level of Alignment for each module of the qualification by evaluating the Learning Outcomes, Assessment Criteria and other relevant information against the OQF Level Descriptors and provides a rationale for the proposed Alignment
 - Comparable OQF Credit Value of each module (see section 3.4.3)
 - OQF Level of Alignment and, if applicable, the comparable OQF Credit Value of the entire qualification

4.1.3 Intention to Appeal

The Director General of the DGNQF sends the Final Alignment Evaluation Report to the Foreign or International Awarding Body along with information that if required an appeal against the outcome and/or the content of the report can be made.

The Foreign or International Awarding Body is requested to inform the Director General of the DGNQF of an intention to appeal the Alignment outcome and/or the Evaluation Report using the OQF Appeal Application Form which should be submitted to the DGNQF within ten working days from the date the Foreign or International Awarding Body received the approved Final Alignment Evaluation Report.

The OQF appeal process is set out in OQF Appeals Manual which is available from the DGNQF or can be accessed from <https://oaaqa.gov.om/>.

The OQFRD is the point of contact between the OQFERs and the Foreign or International Awarding Body. The OQFERs do not contact Awarding Body directly; all contact is made through the OQFRD.

The OQFRD:

- Reviews the Alignment application from the Foreign or International Awarding Body and brings together the initial Alignment Evaluation Reports from the OQFERs
- Considers the OQFERs' initial Alignment recommendations
- Prepares for meetings with the OQFERs and, if required, staff within the Foreign or International Awarding Body involved with the Alignment process to discuss any aspect of the Alignment application and clarify issues raised for example, where there are different views on the outcome of the initial Alignment evaluations and/or where there are different views on the OQF Level and/or comparable OQF Credit Value of the entire qualification

APPENDIX A: Actions following the OAAAQA Board Decision for Alignment

The following actions are taken, depending on the decision of the OAAAQA Board on the Alignment outcome.

- If the OAAAQA Board approves the outcome that recommends the qualification for Alignment, the DGNQF:
 - Informs the Foreign or International Awarding Body
 - Sends the Final Alignment Evaluation Report to the Foreign or International Awarding Body
 - Places the qualification on the Alignment Section of the NRQ

- If the OAAAQA Board approves the outcome that Recommends the qualification for Alignment with Condition, the DGNQF:
 - Informs of the Foreign or International Awarding Body
 - Sends the Final Alignment Evaluation Report to the Foreign or International Awarding Body
 - Discusses the requirements of the condition with the Foreign or International Awarding Body and reaches an agreement on a suitable timeframe to allow for the necessary changes to be made
 - Informs the Foreign or International Awarding Body of the opportunity to appeal the Final Alignment Evaluation Report and/or the outcome

The qualification is not placed on the Alignment Section of the NRQ until the condition placed on the qualification is met by the Awarding Body within a timescale agreed with the DGNQF.

- If the OAAAQA Board approves the outcome that recommends the qualification is Not Recommended for Alignment, the DGNQF:
 - Informs the Foreign or International Awarding Body
 - Sends the Final Alignment Evaluation Report to the Foreign or International Awarding Body
 - Informs the Foreign or International Awarding Body of the opportunity to appeal the Final Alignment Evaluation Report and/or the outcome

- If the OAAAQA Board does not approve the Alignment outcome as it does not agree with the recommended OQF Level of Alignment and/or the comparable OQF Credit Value, it sets out the reasons and provides the DGNQF with direction regarding the actions to be taken so that the Alignment application can be re-evaluated and resubmitted for approval
