4.3.3 Alignment Application: Institutional Quality Assurance and Communication

Unlike an Omani Awarding Body, a Foreign or International Awarding Body does not require an institutional license from a licensing body in Oman. Consequently, **in addition** to the information and evidence of the quality assurance for the qualification, an Alignment application from a Foreign or International Awarding Body must include the most recent quality assurance report/accreditation report from a recognised external quality assurance agency together with relevant supporting material providing evidence that the Awarding Body has the following institutional quality assurance measures are in place:

- b. Sufficient resources to operate in Oman and meet relevant Omani regulations**

i. Policies and procedures, which ensure the continuous improvement of its operations

- Relevant policies and procedures are provided together with information and evidence on how the Foreign or International Awarding Body ensures the continuous improvement of its operations with the education or training provider(s) delivering the qualification in Oman

The OQF Alignment Panel checks that the Alignment application includes a communication strategy and/or detailed information on the communication arrangements with each education or training provider delivering the Foreign or International qualification in Oman, (see OAAAQA Policy for the Alignment of Foreign and International Qualifications to the OQF).

4.4 Actioning a Major Change

The DGNQF actions any major change to modules comprising a Listed or Aligned qualification to ensure the qualification continues to meet the Listing or Alignment Criteria and remains at the allocated OQF Level and OQF Credit Value. This may involve the evaluation of revised modules, or new modules added to the programme and, if applicable, the qualification. For Omani qualifications, the DGNQF ensures that the qualification continues to meet the required qualification type.

If as a result of a major change a qualification no longer meets the Listing or Alignment Criteria and/or there is a change in the OQF Level and/or OQF Credit Value, the Director General of the DGNQF contacts the senior representative in the Awarding Body with responsibility for Listing or Alignment to discuss the issues and provide the Awarding Body with the opportunity to rectify the situation and appropriate action to be taken in following the OAAAQA Policy on Major Change Notification.

4.5 Re-Listing or Re-Alignment

The first Re-Listing or Re-Alignment takes place after the first cohort of learners completes the qualification. All qualifications on the NRQ are subject to Re-Listing or Re-Alignment on a cyclical basis.¹¹ As long as a qualification continues to be delivered and remains on the NRQ, it is subject to further Re-Listing or Re-Alignment review(s) at intervals specified by the DGNQF and approved by the OAAAQA Board.¹² In this way, the integrity and accuracy of the NRQ are maintained and all stakeholders can be confident of the quality assurance of the qualifications therein.

The Re-Listing or Re-Alignment Panel:

- Reviews the evidence submitted by the Awarding Body to establish whether, during the delivery of the qualification, the quality assurance measures required to meet the Listing or Alignment Criteria were maintained (see section 4.3.2)
- Ensures that no major change was made to the structure of the qualification, Learning Outcomes of the modules and/or to the assessment arrangements, which affected the allocated OQF Level and/or OQF Credit Value of the entire qualification
- Ensures the DGNQF was notified of any major change made to the qualification to enable the appropriate action to be taken¹³

¹¹ For example, every five years for a bachelor's degree.

¹² The Re-Listing and Re-Alignment process is cyclical according to the type of qualification (for example, a bachelor's degree is Re-Listed every five years).

¹³ See the OAAAQA Policy on Major Change Notification.

Re-Alignment also establishes whether the foreign or International Awarding Body:

- Maintained its accreditation status, as given in the Alignment Application
- Maintained the institutional quality assurance measures required for Alignment to the OQF (see section 4.3.3)
- Implemented the communication strategy/arrangements with each education or training provider delivering the qualification and its effectiveness (see OAAAQA Policy for the Alignment of Foreign and International Qualifications to the OQF)

As the Listed or Aligned qualification has already been evaluated to allocate the OQF Level and OQF Credit Value, the Re-Listing or Re-Alignment Review does not involve re-evaluating the modules that comprise the qualification. If no changes have been made to the modules, the qualification remains at the OQF Level that was allocated at the Listing or Alignment evaluation.

If there has been a major change to any of the modules that comprise the qualification or one or more modules have been removed and replaced with others, the amended or new modules are evaluated to ensure that the changes did not impact on the OQF Level and/or OQF Credit Value of the entire qualification (see section 4.4).

4.6 OAAAQA Executive Office

The OAAAQA CEO:

- Considers for approval the appointment of OQFERs to the National Register of External Reviewers, recommended by the Director General of the DGNQF or, where required, the removal of OQFERs from the Register
- Considers the Second Drafts of the evaluation and review reports for Listing, Alignment, Re-Listing or Re-Alignment for approval as the Final Report, as applicable

4.7 OAAAQA Board

The OAAAQA Board:

- Considers for approval OAAAQA Policies relating to the quality assurance of the OQF developed by the DGNQF and reviewed by the OAAAQA CEO
- Considers for approval the outcomes of Listing and Alignment evaluations and Re-Listing and Re-Alignment reviews and the placement, or removal, of qualifications from the NRQ
